MYSORE GOVERNMENT OFFICE.

Local Boards Branch.

OFFICE NOTE.

Subject.

Standard plan and Estimates for the construction of musafirkhanas in the Province.

Estimates received from time to time from the Dy Comr of Distts have not been sanctioned but the construction was ordered to be put off, pending the issue of final orders on the standard plans proposed.

(2) The Chief Engineer in consultation with the Dy Comrs now proposes 3 classes of musafirkhanas & submits detailed estimates with plans & costing as below:

1st class costing Rs 4895-

2nd — " — 4139

3rd — " — Rs 3133

(3) If these are approved by Govt, they will be lithographed and circulated to all Dy Comrs and adds that the standard plans of the kind now submitted would save his office from large ~~work~~ ~~del~~ amount of extra work devolving on it in the preparation of projects for Mess afirkhanas.

(4) Hitherto the estimates for Messafirkhanas passed in this branch were less costly, not exceeding Rs 1000 on an average. In para 2 of his letter, the Dy Com of Kolar ~~estates~~ apprehends that the costs of the buildings as proposed by the Chief Engnrs are a little too high.

Submitted for orders

SERIAL No. — 6

The General Secretary to the
Government of Mysore.

Sir,

With reference to Government Proceedings No: 15798-810 / L.F. 144-94 dated 29th March 1895 directing to submit a standard plan for Musafarkhanas to be constructed in the several Districts. I have the honor to state that the four kinds of Musafarkhanas for which designs (one for 4th class herein enclosed) have been prepared and circulated for the opinion of the Deputy Commissioners, by the Chief Engineer, cannot conveniently be adopted, as the estimated amount of each ranges from Rs 2700 to Rs 10000, which is too high a sum to be spent for each Musafarkhana considering the limited accommodation required by travellers

and

and the resources of the District Funds the demand for which for other purposes of utility is great.

2. Having regard to the requirements and convenience of travellers and the Funds at the disposal of the Board, a standard plan has been prepared and the marginally noted buildings have already been constructed in accordance with this design at an outlay of Rs 1000/- each.

Proceedings of the Government of Mysore, Local Boards Branch, Local Funds, dated 20th January 1896.

READ

Letter dated 2nd January 1896, Camp No. 3, from the Chief Engineer of Mysore.

With reference to Proceedings Nos. 1967-8--L. F. 50-94 and 4887-8—L. F. 50-94 of 9th August and 30th October 1895, respectively, I have the honor to forward the accompanying plans and estimates for 1st, 2nd and 3rd Class Musafirkhanas, and to request that you will be so good as to obtain the approval of Government thereto. The plans have been designed in accordance with the suggestions advanced by Duputy Commissioners, to whom they were sent for opinion as to their suitability, &c.; so far as such opinions did not clash with each other, and if they are approved by Government, they will be lithographed and circulated to all Deputy Commissioners for adoption in future.

2. I need hardly say that standard plans of this kind would save my office a large amount of extra work in dealing with projects for Musafirkhanas.

3. The plan received with Proceedings No: 4887-8—L. F. 50-94, dated 30th October 1895. is herewith returned.

No. 8204-13—L. F. 50-94, DATED, BANGALORE, 20TH JANUARY 1896.

ORDER THEREON.—The standard plans which have met with the general concurrence of Deputy Commissioners of Districts are approved, and the Local Fund Board concerned will in each case be consulted as to whether a Musafirkhana proposed should be of the 1st, 2nd or 3rd Class according to the importance of the station and its requirements.

2 The Chief Engineer is requested to be good enough to have the plans lithographed and circulated to all Deputy Commissioners as proposed in his letter read above.

V. N. NARASIMMIYENGAR,
General Secretary.

To—The Chief Engineer in Mysore, returning the standard plans and estimates.
The Deputy Commissioners of Districts.

Enclosures No. ~~1 copy of letter~~ 1 Plan.

SUBJECT.

Stating that there is no objection for adopting the plan for a cheap Dhuraseekhana as proposed by Deputy Commissioners and suggesting that the same be lithographed and circulated as the standard Plan for a 4th Class Dhuraseekhana.

A thousand Rupee musafirkhana is a desideratum + the plan & the estimate which has been approved by Chief Engineer may be added to the list of standard plans.

DP

Subh to Secretary

12/3/96

Spec 12/3

12/3

Our District Friend Boards are nearly all of them too poor to stand such a large item as between 3000 & 4000 Rupees each musafirkhana. This is a good deal more & the Commissioners think the means of our Boards - It may be abstracted & lithographed.

MYSORE P. W. DEPARTMENT
CENTRAL OFFICE,

Bangalore, 6th March 1896.

From

The Chief Engineer of Mysore,
Bangalore.

To

The Secretary
to the Government of Mysore.
General and Revenue Departments.

Sir,

With reference to Government Proceedings No. 3491 / L.F. 144-94 of 11th September 1895, forwarding copy of Kolar Deputy Commissioner's letter No. 930 / 192 of 26th August 1895, and its enclosure for opinion, I have the honor to inform you that I have no objection to the adoption of the Plans for a cheap dwasakhana, as proposed by the Deputy Commissioner. It provides much less accommodation than the standard for the 3rd class dwasakhana approved of in Government Proceedings No. 8204-13 / L.F. 50-94 of 20th January 1896; but in

cases

case where Debuty Commissioners the 2
a building of this design will be sufficient,
it may be adopted. I would suggest
that it be now lithographed and Circulated
as the Standard plan for a 4th Class
Surafekhana

II. The Plan received with the Proceedings
under reference is herewith returned.

I have the honor to be.
Sir,
Your most obedient servant.

C. Unwin. Colonel.

Proceedings of the Government of Mysore, Local Boards Branch Local Funds, dated 31st March 1896.

READ THE FOLLOWING PAPERS :—

Letter dated 26th August 1895, No. 930—192, from the Deputy Commissioner, Kolar District.

With reference to Government Proceedings No. 15798-810—L. F. 144-94, dated 29th March 1895, directing to submit a standard plan for musafirkhanas to be constructed in the several Districts, I have the honor to state that the four kinds of musafirkhanas for which designs (one for 4th class herein enclosed) have been prepared and circulated for the opinion of the Deputy Commissioners by the Chief Engineer, cannot conveniently be adopted, as the estimated amount of each ranges from Rs. 2,700 to Rs. 10,000, which is too high a sum to be spent for each musafirkhana, considering the limited accommodation required by travellers and the resources of the District Funds, the demand for which for other purposes of utility is great.

2 Having regard to the requirements and convenience of travellers and the funds at the disposal of the Board, a standard plan has been prepared and the marginally noted buildings have already been constructed in accordance with this design at an outlay of Rs. 1,000 each.

(1) Musafirkhana at Malur.
(2) Ditto Patna in the Kolar Taluk
(3) Ditto Vemagal Ditto
(4) Ditto Nangali, Mulbagal Taluk.

3. I request therefore that the accompanying plan may be accepted as the standard one in the case of musafirkhanas of ordinary kind for which a sum of Rs. 1,000 or thereabouts is provided in the Budget.

Letter dated 6th March 1896, No. 905, from the Chief Engineer of Mysore.

With reference to Government Proceedings No. 3491—L. F. 144-94, dated 11th September 1895, forwarding copy of Kolar Deputy Commissioner's letter No. 930—192 of 26th August 1895, and its enclosure for opinion, I have the honor to inform you that I have no objection to the adoption of the plan for a cheap musafirkhana, as proposed by the Deputy Commissioner. It provides much less accommodation than the standard for the 3rd class musafirkhanas approved of in Government Proceedings No. 8204-13—L. F. 50-94 of 20th January 1896; but in cases where Deputy Commissioners think a building of this design will be sufficient, it may be adopted. I would suggest that it be now lithographed and circulated as the standard plan for a 4th class musafirkhana.

2. The plan received with the Proceedings under reference is herewith returned.

No. 11170-8—L. F. 110-95, DATED, BANGALORE, 31ST MARCH 1896.

ORDER THEREON.—Government are satisfied that both on financial grounds and with regard to the circumstances and necessities of particular localities, it is desirable to prescribe a cheaper plan of a musafirkhana in addition to the standard plans costing from Rs. 3 to 5,000 prescribed in Government Proceedings, dated 20th January 1896, No. 8204-13—L. F. 50-94; such a plan estimated to cost Rs. 1,000 has been suggested by the Deputy Commissioner of Kolar, and approved by the Chief Engineer in the letters above read. and Government authorize its adoption by District Fund Boards.

2. The Chief Engineer is requested to be good enough to have the plan lithographed and circulated to all Deputy Commissioners.

C. SREENIVASIENGAR,
